

COMPENSATION

The fifth Dataset is another step towards Compensation Dataset creating the most comprehensive Corporate Governance Database.

The Compensation Dataset was created based on the following parameters:

- a) existing literature
- b) researcher requirements
- c) availability of information

We believe that with the 50 variables that constitute this new dataset we will cover all the needs of Researchers dealing with Compensation.

We are always in constant dialogue with the academic community to enrich this new Dataset with new variables.

Compensation Dataset contains variables on the following categories:

- Executive Compensation
- Director's Compensation
- Ownership Guidelines
- Compensation Consultants
- Non-Executive Fees
- Pay Ratio CEO

BENEFITS

- Access to CEO Compensation Dataset since 2011 for more than 6.800 companies.
